

Review this draft. Approving it queues a personalized send to every contact flagged `newsletter` -- delivered gradually (~25/day), not all at once. See "Delivery" below.

SUBJECT

The follow-up sequence that books calls overnight

RECIPIENTS

Name	Business
------	----------

0 contacts flagged `newsletter` in the DigiGrowth OS -- flag contacts in the CRM before drafting.

TOPIC THIS WEEK

The AI follow-up sequence that books consultations while you sleep -- mode: objection-led

EMAIL PREVIEW

Hey {{first_name}},

Here's an uncomfortable question.

How many people asked about your services this month and never heard back a second time?

This isn't for everyone.

If you already follow up with every single inquiry -- three or four times, without fail -- this one's not for you.

Skip to the next email.

But if you're like most independent service-based businesses, that follow-up happens once, if at all.

Then life gets busy.

And the lead goes quiet.

The old way is a sticky note or a mental reminder to "circle back."

The AI Growth Engine way is a follow-up sequence that runs on its own.

It texts. It emails. It keeps showing up until someone books.

We see the same pattern across independent service-based businesses.

The ones with an automatic sequence book more consultations than the ones relying on memory.

Not because their offer is better.

Because the follow-up actually happens.

Want me to put together a custom AI + marketing plan for {{business_name}}?

Book a quick discovery call -- grab a time here.

Talk soon,

Dylan | Digigrowth

P.S. -- this isn't a sales pitch, just 20 minutes to see if The AI Growth Engine fits {{business_name}}.
