

Review this draft. Approving it queues a personalized send to every contact flagged `newsletter` -- delivered gradually (~25/day), not all at once. See "Delivery" below.

## SUBJECT

The AI shift turning cold leads into clients

## RECIPIENTS

Name

Business

0 contacts flagged `newsletter` in the DigiGrowth OS

## TOPIC THIS WEEK

How independent service-based businesses are using AI to turn cold leads into paying clients -- mode: tip-led

## EMAIL PREVIEW

Hey {{first\_name}},

Most cold leads don't go cold because they were never interested. They go cold because nobody got back to them fast enough.

Here's the reframe. The old way: a lead fills out a form, sits in an inbox for a day, then gets a generic follow-up. The AI Growth Engine way: it's contacted within minutes, qualified automatically, and routed straight onto your calendar.

One independent service business we looked at was sitting on a list of leads nobody had touched in months. They didn't buy more leads. They plugged in an AI follow-up sequence -- fast, consistent messages, nothing fancy. Old leads started replying. A few turned into booked calls. A few of those turned into paying clients. Not magic. Just speed and consistency, automated.

Quick qualifier: this works best if you're already generating leads but losing them to slow follow-up. If lead volume itself is the problem, this isn't the fix -- skip this one.

Want me to put together a custom AI + marketing plan for {{business\_name}}? Book a quick discovery call and I'll walk you through how The AI Growth Engine would work for you -- grab a time here.

Talk soon,

Dylan | Digigrowth

P.S. -- this isn't a sales pitch, just 20 minutes to see if this is a fit for how you already generate leads.
